EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with applicant's representative, Mr. Mark P. White, on May 27, 2005. The change to the title was not authorized, however, it is necessary for clarification.

The application has been amended as follows:

The title "[Quartering Pill Splitter]" has been changed to --Quartering Pill Splitter--;

Claims 8-14 have been canceled.

The following is an examiner's statement of reasons for allowance: The claims define an apparatus with an upper body provided with linear guides slots wherein a plunger with a linear, pointed edge slides and forces a pill, which is in the recess of a pill bed having guide tabs, against a cruciate blade that has a second cutting edge that is offset from the first cutting edge. Maoz (6,041,697) teaches a plunger a plunger with guides slots being sliding towards a bed in order to crush a nut's shell, but does not teach a cruciate blade, guide tabs and does not teach a plunger with a linear pointed edge. Samuelson (5,634,272) teaches an apparatus with a plunger, a pill bed and a cruciate blade, but does not teach a second cutting edge that is offset from the

first cutting edge, guide tabs and does not teach an upper body with linear guide slots with a sliding plunger therein. Berry et al (2,852,053) teach an upper body with a guides slot, a plunger with a linear, pointed edge, but does not teach a cruciate blade and does not teach a pill bed. Umanoff (3,048,208) teaches a plunger and a cruciate blade that has a second cutting edge that is offset from the first cutting edge, but does not teach a pill bed, and does not teach an upper body with guides slots wherein a plunger with a linear, pointed edge slides. It would not have been obvious to combine the references with other prior art teachings in order to meet the claim limitations. US Patent Nos. 6,644,528 and 6,474,525 to Reitano were checked for double patenting due to similar subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Isaac Hamilton whose telephone number is 571-272-4509. The examiner can normally be reached on Monday through Friday between 8am and 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on 571-272-4514. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
